

# Department Home Pages

## Snippets and Design

Welcome to the guide for building new department webpages in Omni Update. This document contains the criteria for the home page, undergraduate students and faculty/staff pages. We will provide snippet selections as well as suggested word count to help you create a beautiful new department site section.

## Home page sections:

Below is a brief list of all the different sections and details that every home page will have. Verbiage, images and snippet selection will be what makes each department different.

### **About/Introduction** - available snippets: Flex 5050 (with or w/o video and dropdown) \*

This will be a brief summary of the department.

### **Students** - available snippets: Teasers (with light or grey background), Tricons or Fast Facts (only if displaying programs) \*

#### **Undergraduate Students**

This page will outline specific details for undergraduate students in your department including: majors, minors, resources, organizations, scholarships, internships, career services, and freshman advising.

#### **Graduate Students**

Content will vary per department.

#### **Online**

Online degrees or resources.

#### **Degree Options**

A full list of departmental degree options.

### **Programs** - available snippets: Teasers (with light or grey background) \*

Here we will show information on degree programs (different from major details) to help students better understand the option they want to pursue.

### **Research/Grants/Facilities** - available snippets: Flex 5050 (video or image), Featured Text+Black Box, Fast Facts \*

Here we will highlight some of the important sections of research for departments that help with recruiting grad students.

### **Staff and Faculty** - available snippets: Info Cards, Routing Cards \*

Here we plan to house a full staff directory with faculty contacts and info.

# Home page cont.

## **News and Events** - available snippets: News and Events\*

Using the same news and events snippet from the CAS home page to link up department calendars to show news and events occurring in the department.

## **Giving/Alumni** - available snippets: CTA+Link List Orange Variation\*

This section will have the same information on all department pages informing alumni how they can give to the college or to their department.

## **ATTENTION\***

The department home page structure will not change. Our Communications and Recruitment team have meticulously put this together for best communication results.

Body: 30-45 words

Right Links

Link: 1-3 words

# Home Template: 1

The first template is for those who do not wish to highlight programs on their home page. The following structure is:

- About the Department
- Students
  - Undergrad
  - Grad
  - Online
  - Program Details
- Research/Grants/Facilities
- Faculty and Staff
- News and Events
- Alumni/Giving/Awards

## Why use this template?

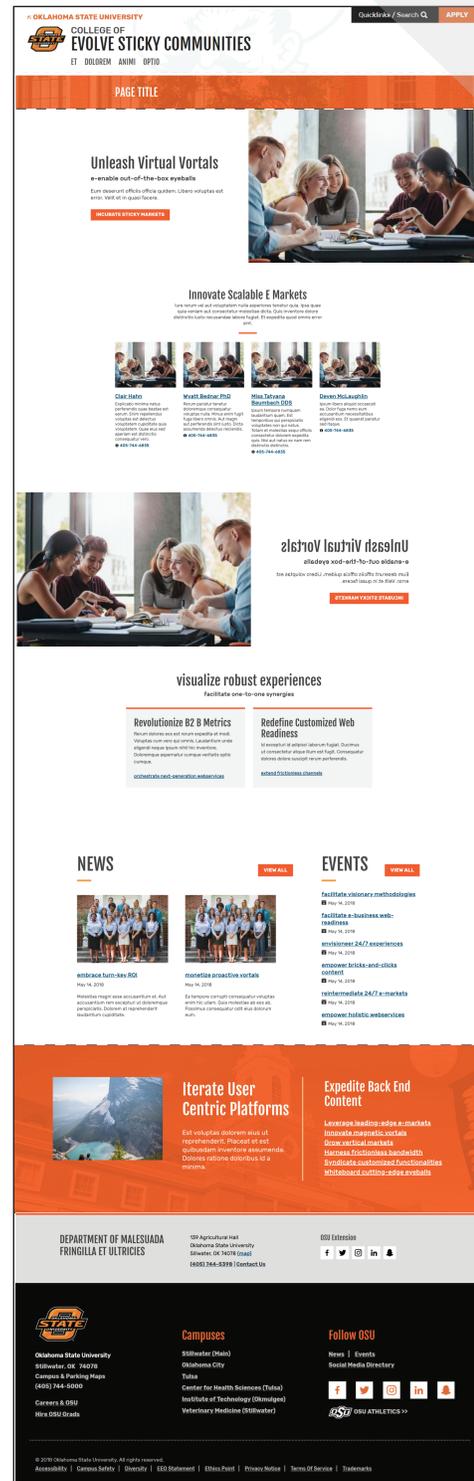

This version is mainly for the student module flexibility, research flexibility, and for those who do not wish to highlight all their programs.

The research section opts for a dropdown just in case you do not want to highlight grants and facilities as well.

## NOTE\*

These templates are not set in stone as there are other snippet options available, but these are **STRONG** suggestions made by our communications and recruitment team for best web presence.

# Home Template: 2

The second template is for those who would like to highlight their department programs on their homepage. This lets departments swap their students snippet for something new since Programs only uses the Teasers snippet.

- About the Department
- Students
  - Undergrad
  - Grad
  - Online
  - Program Details
- Programs
- Research/Grants/Facilities
- Faculty and Staff
- News and Events
- Alumni/Giving/Awards

## Why use this template?

This version adds the programs section for students to find program information quickly, or to spotlight programs to increase recruitment and visibility.

## NOTE\*

These templates are not set in stone as there are other snippet options available, but these are **STRONG** suggestions made by our communications and recruitment team for best web presence.

# Dept. Undergrad Page

## Snippets and Design

The plan for the undergraduate student page is to have the same universal design across all departments. It was designed by the communications and recruitment teams to best serve undergraduate students at a department level with tools, resources, and information to succeed.

## Undergrad Sections

These sections will be in order from top to bottom as they will be shown on the page. We have used strategic communication to best group and order these sections for effective navigation and design.

### **Opportunity Highlights** - available snippets: Flex 5050 (with or w/o video and dropdown) \*

A brief summary written by departments to sell what the department is doing for students, OSU, and the future

### **Nav Bar** - available snippets: Routing Bar Orange \*

#### **Majors**

Full A-Z list of majors in the department and information on them.

#### **Minors**

Full A-Z list of minors in the department and information on them.

#### **Certificates**

Full A-Z list of certificates in the department and information on them.

#### **Coursework**

Coursework information and class details.

#### **4+1 (Optional)**

### **Connect with your community - student orgs, faculty, dept. advisor, freshman advisor**

This section specializes in connecting like-minded students and developing relationships with faculty and advisors.

### **Achieve Real Experience - Study Abroad, Internships, Research Opportunities, Experiential Learning**

Here we look to highlight subject that give students experience they can earn outside the classroom through travel or research.

# Undergrad Page Cont.

## Succeed With Support - Scholarships, Career Services, Dept. Resources, Facilities

Here we give students resources and options to help them succeed at CAS, from financial to academic assistance.

## Flex Section

Just in case we did not cover everything above or there is more to the department. Every department will have different information so being flexible with this spot will help add information that others may not have.

## ATTENTION\*

The Undergraduate Student page structure will not change. Our Communications and Recruitment team have put this together for best communication results.

# Faculty and Staff

## Snippets and Design

For Faculty and Staff, we plan to have a simple layout consisting of headshot and contact information for easy recognition and navigation. The designs for both pages will have similar appearance for consistency. This is the same look we gave the Dean's Leadership page on the main CAS site.

## Sections

### Faculty/Staff Display

Headshot and Contact information and website display.

### Flex

For any overall contact or office contact information.

## Snippets

### Teasers

Multiple rows of four. Light and Grey variations available.

### Word Count

Heading: 3-6 words

Sub-Head: 5-7 words

Sections:

Heading: 1-3 words

Body: 20-30 words

Button: 3-6 words

### CTA+Links

Only one option available.

### Word Count

Heading: 3-6 words

Body: 30-45 words

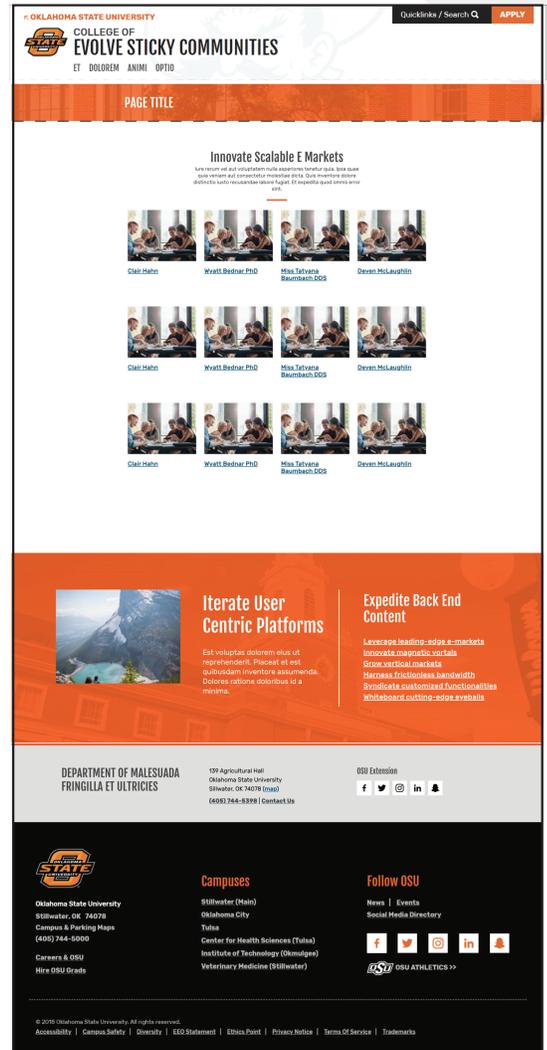

Right Links

Link: 1-3 words

# Faculty and Staff Layout

## Faculty and Staff Structure

- Faculty/Staff Members
- Flex Contact

## ATTENTION\*

This template structure is not flexible, but what you select for them is. Work with your CAS web assistant to help fill content.
